## Become a better performer!

Learn the ropes from musical performers and instructors Charlotte Ubben and David Baron as you build your confidence as a performer and prepare a final show to perform live on the Bird stage.

With repertoire options including material from Hairspray, Annie, Legally Blonde, The Beatles, Elton John, Natasha Bedingfield, The Police and The Jonas Brothers, students will explore vocal fundamentals and basic instrumental technique.

Instructors will provide guidance in breath, vocalizations, ear training and choreography. We will also have a look at songwriting and pop song structure.

Our final day will be spent preparing for and presenting our show to family and friends. We will record the performance and you'll take home a DVD for your archives.
