

2010-2011 Year-at-a-Glance

Note: This year we have added a 'Pre-Week' to each session, where bands will meet as a group to research the session artist, solidify song selection, choose a key, make charts, discuss lyrical content and overall get the band pumped up for the upcoming session. This meeting will expedite the rehearsal process as well as provide the bands with a more complete understanding of the music they are playing.
